Election/Restriction

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions, which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in response to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-20 drawn to a method of reducing inflammation in a patient.

cell migration using a polypeptide, classified in class 435, subclass 7.1.

Group II, claim(s) 21-29, drawn to a method of transplanting an organ.

Group III, claim(s) 30-32, drawn to a method of performing angioplasty.

Group IV, claim(s) 33-35, drawn to a method of performing vascular surgery.

Group V, claim(s), 36-38, drawn to a method of treating a cellular proliferative and/or differentiative disorder.

Group VI, claim(s), 39-41, drawn to a method of reducing the effects of ischemia in a patient.

Group VII, claim(s), 42-53, drawn to a method of treating atherosclerosis.

Group VIII, claim(s), 54-58, drawn to a pharmaceutical composition.

2. The inventions listed as Groups I-VIII do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special

Art Unit: 1652

technical features for the following reasons: because Groups I-VII are directed to methods which have different endpoints and method steps. These methods are also not showed to work together, hence lack a special technical feature. Group VIII is directed to a composition comprising biliverdin and bilirubin or mixture thereof, which does not escape the prior art (see Ryter et al., Am. J. Physiol. Heart Circ. Physiol., vol. 279, pages H2889-H2897, 2000), which indicates that the claimed invention lacks unity. Thus, these inventions are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
